# Reddit for Students

Author: George B. , Charles T. , Ismail E. , Bradley Z. , Alexander Wyman

## Problem Statement

Students don't have access to an easy and safe website to obtain information not provided by the university or professors.

## Who is experiencing the problem?

Students in universities all around the country.

## What is the problem?

Students often have lots of questions for people other than professors that they do not get answered.

## Where does it present itself?

Universities around the country.

## Why does it matter?

University students spend thousands of dollars for resources that they miss out on because they are not informed about it.
